

LOCKED TIMEOUT ROOM RELEASE FORM

Should a boy become out of control and/or a danger to himself, others or property and cannot be controlled by other, less restrictive but appropriate means, Sky Ranch does maintain and have available for use a locked time-out room. Use of this room is strictly governed by written guidelines and a reporting/review process is established and followed for each use. The room is never used for punishment - only control of behaviors not controllable by other means.

Occasionally, defiance and belligerence become a pattern in the boy's behavior. If refusal to comply with the program becomes a recurring problems, ie. refusing to attend school, follow verbal instructions, complete daily chores, etc., it can be helpful to isolate the boy in the time-out room for a short period of time. As in the case of dangerous behavior discussed above, use of the time-out room for continued defiance will be according to pre-established guidelines and review procedures and will be discontinued when the boy demonstrates his willingness to comply.

We want you to know of the existence of this tool of control of dangerous behavior and we want your permission to use it if necessary. Please indicate your authorization below for Sky Ranch to use the room.

I(we) hereby give my/our permission for Sky Ranch to use its locked time-out room for the above-named boy only if he is out of control or a danger to himself or others. I also authorize Sky Ranch to use its locked time-out room when deemed appropriate for control of habitual defiance for a period of up to three hours. I understand the rules for the use of the time-out room are written and a reporting procedure established so I will be informed anytime the use of the room is necessary.
